## WORK EXPERIENCE

### Two Point One

Software Developer

New Hyde Park, NY

June 2021-Present

- Produced multiple visual elements of web applications by translating UI/UX design wireframes into code, creating high-quality markup using react.
- Developed a share link feature with react for a new feature, improving user invites by 70% and leading to new user onboarding on the app.
- Worked intensively on React.js, less/sass, Ant-designs, material-UI, redux-saga, next.js, and storybook to create interactive web applications.
- Collaborated in replacing the old react codebase with next.js, making a dedicated design system leading to independent components and cleaner code.
- Built all new features with extensive testing, reducing the number of customer complaints by 15%.
- Developed multiple UI pages using webflow, utilized the Webflow cms for content management, and made custom features that are not available in webflow.
- Created custom email templates in SendGrid using HTML, and CSS.
- Worked in a highly collaborative agile team environment.
- Worked closely with senior developers to learn best practices in web development
- Conducted ramp-up training on Webflow with colleagues.

### Tiniyo Pvt. Ltd.

Software Engineer Intern

Bengaluru, India

Jan 2021- March 2021

- Maintained the official website and updated the documentation of the company services.
- Developed a one-time password verification node.js web application to demonstrate the working of the company's SDK service.
- Collaborated to develop a RESTful API with Node.js, MySQL, and JWT for an incident management web application.

## PERSONAL PROJECTS

### PORTFOLIO

[View](#)

As a front-end developer, my personal portfolio showcases a variety of web projects that demonstrate my skills in React and SASS. These projects range from simple static websites to interactive web applications and highlight my ability to create engaging and user-friendly experiences. In addition to my technical skills, my portfolio also showcases my attention to detail and my ability to create clean and efficient code.

### ROCK PAPER AND SCISSORS GAME

[View](#)

One of my recent projects was a rock, paper, scissors game built using React and SASS. This project required me to utilize my skills in frontend development, as well as my ability to think creatively and problem-solve. The game features a responsive design, allowing it to be played on any device, and includes a simple yet visually appealing interface. Through this project, I was able to demonstrate my ability to create interactive web applications and my attention to detail in design and functionality.

## SKILLS & INTERESTS

**Skills:** HTML, CSS, Bootstrap, MaterialUI, Styled Components, JQuery, React.js, Redux/Redux-Saga, SASS/LESS, Next.js, Storybook

## EDUCATION

Lovely Professional University

Bachelor of Computer Application(Hons.)

Jalandhar, Punjab

Jan 2021
