WORK EXPERIENCE

Two Point One   **New Hyde Park, NY**
Software Developer   *June 2021-Feb 2023*
- Developed over 20 visual elements for web applications, incorporating graphics and layouts, by translating UI/UX design wireframes into code utilizing React, resulting in high-quality markup.
- Implemented a share link feature using React, which resulted in a 70% improvement in user invites and a notable increase in new user onboarding on the app, as measured by amplitude metrics.
- Developed new features with comprehensive testing, resulting in a 15% decrease in customer complaints as a direct result of the improved quality and reliability of the product.
- Created 15+ UI pages with Webflow, managed content with Webflow CMS, and built 4+ custom features, showcasing expertise in the platform.
- Built at least 10 custom email templates in SendGrid using HTML and CSS, demonstrating proficiency in creating visually appealing and functional email templates using these technologies.
- Collaborated in an agile team and learned web development best practices from senior developers. Trained 3+ colleagues in Webflow, exhibiting teamwork and knowledge-sharing abilities.

Tiniyo Pvt. Ltd.   **Bengaluru, India**
Software Engineer Intern   *Jan 2021- March 2021*
- Managed and updated website and monthly documentation of services, ensuring accurate and relevant information.
- Developed and launched a Node.js OTP verification web app, leading to a 30% increase in signups for the company's SDK service by showcasing its capabilities.
- Designed and implemented a RESTful API for an incident management web app, reducing response time by 50% using Node.js, MySQL, and JWT.

PERSONAL PROJECTS

PORTFOLIO(CRA, React, SASS and HashnodeAPI)   [View](#)
- Built a portfolio website using React and Sass, highlighting skills, achievements, and professional experience. Produced a modern, responsive design with optimized speed and accessibility for a seamless user experience.

ROCK PAPER AND SCISSORS GAME(CRA, React, and SASS)   [View](#)
- Created a React and Sass rock, paper, scissors game, demonstrating proficiency in frontend development and problem-solving abilities.

WINDBNB(Vite, React, SASS, and Zustand)   [View](#)
- Developed Windbnb, a vacation rental app using React, Zustand, and Sass, applying clean code principles, responsive design, and Zustand for state management to provide a maintainable, readable, and user-friendly app.

WEATHER APP(Vite, React, SASS, Zustand, and Openweather API)   [View](#)
- Built a weather app using React, Sass, and Zustand, providing real-time weather information and forecasts. Ensured a visually appealing and user-friendly interface while leveraging state management with Zustand for efficient data handling.
