WORK EXPERIENCE

Freelance Web Developer   **Remote**
Software Developer   *Oct 2023 - Present*
- Spearheaded the creation of a frontend solution for an **HR assistance application**, optimizing the management of candidate applications and operational workflows for a team of **50+** recruiters.
- Implemented **React** to ensure a dynamic and responsive user interface and integrated **Ant Designs** components for improved aesthetics, resulting in a more intuitive **user interface** and positive feedback from internal users.
- Conceptualized and crafted a visually appealing website for an interior designer and property resale company, showcasing their portfolio and services. Ensured **responsiveness** across devices and integrated intuitive navigation, contributing to a **10% decrease** in bounce rate.

Two Point One   **Remote**
Software Developer   *June 2021 - Feb 2023*
- Produced over 100+ visual elements for web applications, incorporating graphics and layouts, by translating **UI/UX design wireframes** into code utilizing **React**, resulting in high-quality markup.
- Executed a share link feature using **React**, which resulted in a **70% improvement** in user invites and a notable increase in new user onboarding on the app, as measured by **amplitude** metrics.
- Developed new features with comprehensive testing, resulting in a **15% decrease** in customer complaints as a direct result of the improved quality and reliability of the product.
- Coded **15+ UI pages** with Webflow, managed content with **Webflow** CMS, and built **4+ custom features**, showcasing expertise in the platform.
- Collaborated in an **agile** team and learned web development best practices from senior developers. Trained 3+ colleagues in Webflow, exhibiting teamwork and knowledge-sharing abilities.

Tiniyo Pvt. Ltd.   **Remote**
Software Engineer Intern   *Jan 2021 - March 2021*
- Managed and updated website and monthly documentation of services, ensuring accurate and relevant information.
- Constructed and launched a **Node.js** OTP verification web app, leading to a **30% increase** in signups for the company's **SDK** service by showcasing its capabilities.
- Designed and implemented a **RESTful API** for an incident management web app.

PROJECTS

THULLO(Next.js, Ant designs, SASS, Firebase, Zustand,DnDKit, Unsplash API)   **View**
- Programmed a web application similar to Trello for project management and enacted robust user authentication via **Firebase** for secure access.
- Utilised **Firebase** Firestore for efficient data storage and retrieval.
- Users can create boards and organize tasks into columns within those boards.
- Tasks can include detailed descriptions, attached files, and cover images. Enabled intuitive **drag-and-drop** functionality for task management across columns

PORTFOLIO(React, SASS and HashnodeAPI)   **View**
- Built a portfolio website using **React** and **SASS**, highlighting skills, achievements, and professional experience. Produced a modern, **responsive design** with optimized speed and accessibility for a seamless user experience.
